

Progressive flexpack recycling technologies - Inno-Talk Europe Informationen

You can achieve recyclability of your packaging with basically two approaches: A common way these days is to adapt the packaging material to existing infrastructure. The other (and longer) way is to develop a more progressive recycling Beschreibung:

We would like to present two very progressive technologies. Will they enable the re-use of flexible packaging materials in valuable applications and replace virgin materials?

Learn about the latest knowledge and available recycling methods in this Inno-Talk Europe.
