

8th European Stand-up Pouch Conference

Agenda day 1 Wednesday, 06.11.2024

0:30h

Dani Tulchinski

Sealed Air Corporation

Supercharge Your Packaging

- Sealed Air: Packaging as a Service TransformationSimplify
- Packaging with Value-Added Services
- Global Reach with Pouch and Rollstock Solutions

0:30h

Josep Isart

HP Indigo

Sustainability as a Business Enabler

- Why digital printing for stand-up pouches?
- Economic efficiency and sustainability as additional benefits
- Examples of successful implementations

0:30h

Nina Beck

Labelisten GmbH & Co. KG

Small quantities - great variety

- Why large customers need small quantities
- Material standardisation as a prerequisite for great variety
- The role of digital printing for stand-up pouches with many variants

0:30h

Stefano Di Maiolo

Wipf AG

High-performance mono-material pouches with ultrasonic sealing: Utilising technological advantages to expand the application possibilities of mono-material pouches

- Brand relevance
- Barrier properties
- Machine technology

0:30h

Susanne Zobel-Reusch

POLIFILM Performance Films GmbH

Stand-up pouches - sustainably well positioned with PE & PP mono films

- Complete PET replacement even with oxygen barrier - MDO-PE makes it possible
- One film = one pouch - the all-in-one solution for PP pouches, completely without lamination

0:40h

Lutz Neugebauer

Südpack Verpackungen SE & Co. KG

Thomas Fuest

SN Maschinenbau GmbH

Paradigm change for spouted pouch fillers

- Challenges in the production of sustainable spout bags
- What are the advantages in the supply chain?
- Trio of machine, film and spout for fast TTM

0:30h

Michael Baumann

Herrmann Ultraschalltechnik GmbH & Co. KG

SUP's & PPWR - Valuetainable with ultrasonic seals

- What advantages does ultrasonic sealing offer with regard to PPWR and monomaterials?
- Potentials through the use of ultrasonic
- Success stories from the market

0:30h

Pierre Emmanuel Grandjean

BERNHARDT Packaging & Process

Progress in improving the mechanical resistance of mono-material PE bags with spouts

- Combination of different polyethylene films for improved mechanical resistance
- Optimised base shape for drop test resistance and stability (2 litre doypacks)
- Specific sealing tools for improved sealing homogeneity and strength

0:30h

Ronny Kunze

Sihl GmbH

adelmo - the beauty of customized printed stand-up pouches

- New technology
- Business opportunities

8th European Stand-up Pouch Conference

Agenda day 2 Thursday, 07.11.2024

0:30h

Jörg Schönwald

SCHÖNWALD CONSULTING

Stand-up pouches on the way to the future

- History for categorisation
- Development by market segments with and without spout
- Typical materials for certain filling goods today and in the future

0:30h

Dagmar Glatz

dm-drogerie markt GmbH + Co. KG

Pouches in the drugstore sector

- From Japanese enthusiasm to German restraint
- Where do stand-up pouches convince and where do they face challenges?

0:30h

Madeline-Marie Fritzsche

Bempflinger Lebensmittel GmbH

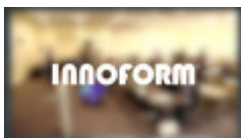

Mirko Sattler

Bempflinger Lebensmittel GmbH

Sustainable, efficient, successful: why we pack our clean label products in stand-up pouches

- Sustainability and efficiency of the stand-up pouch
- Versatility and user-friendliness
- Market trends and success stories

0:30h

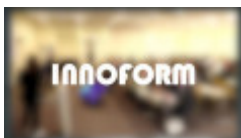

Albin Kälin

epeaswitzerland gmbh

Pouches with cradle to cradle certificate

- Why cradle to cradle certification?
- Why is this so important with pouches?
- Example of successful implementation and certification

0:30h

Lea Middendorf

Pöppelmann GmbH & Co. KG Kunststoffwerk-Werkzeugbau

Sustainability and technology combined: spouts for stand-up pouches

- Spouts with patented welding base for thermal and ultrasonic welding.
- Material solutions for recyclable mono-material pouches.
- Post-consumer recycle applications for the non-food sector.

0:30h

Pierangelo Brambilla

Sun Chemical Group S.p.A.

New Approaches for the Stand-Up Pouch Market: Sunchemical's Integrated Solutions

- Sustainability and Circular Economy - Impact on design and requirements
- Sunchemical's Integrated Product Solutions - Comprehensive portfolio of coatings, adhesives and inks
- Solutions for Mono-material Packaging and Regulatory Compliance - Focus on Ultra Low Monomer Technology and its advantages.

0:10h

Karsten Schröder

Innoform Coaching GmbH

Summary & conclusion

- The most important facts in 10 minutes
