

Paper-based flexible packaging

Agenda day 1 Friday, 08.12.2023

13:30

Introduction

13:40

Miguel Angel Dora Llado

Saica Flex Barcelona

The journey of new paper products in flexible packaging

- Why will this happen (legislation)
- How will this happen (challenges on productivity, machine retrofitting and validating recyclability)
- What we can see on the shelf (some examples about products and next step towards recycled paper)

Q&A

14:05

Juan Cano

SCREEN Europe BV

Sustainable Inkjet Digital Printing Solutions for Paper Packaging as a circular economy enabler

- The growing trend of replacing multi-layer plastic packaging with paper to meet consumer demands for eco-friendly solutions
- Unlock the potential of paper packaging: Explore the benefits, applications and limitations of flexible papers
- Inkjet Digital Printing as a catalyst to accelerate mass market adoption and ramp up volumes
- Circular Solutions: Enhance resource efficiency, reduce environmental impact and lower energy consumption with inkjet digital printing

Q&A

Panel discussion

14:45

Karsten Schröder

Innoform Coaching GmbH

Conclusion
