

2nd European Gravure printing conference - Focus: Efficient production of short runs (German-English simultaneous translation)

Agenda day 1 Tuesday, 05.10.2010

10:30	Dirk Schibull <i>SIG International Services GmbH</i> Gravure and standardized processes • The necessity of manufacturer-covering standards in the tobacco industry • Effects on quality and product development • Progress report
11:45	Adolf Ahrens <i>Wipak Walsrode GmbH</i> Challenges in Fresh Food Packaging • Reasons for shrinking order sizes and their effects on pre-press, printing and converting • Short runs in gravure printing at 1,400 mm width • Sustained success through advanced workflow and service concepts
12:30	Thomas Reckert <i>Bobst Group Deutschland GmbH</i> Different Rotogravure machine concept for short runs • Definition short runs • Printing cost comparison narrow web vs. wide web • Added value on Rotomec gravure machines concept for short runs
14:30	Volker Haske <i>ppg > flexofilm GmbH</i> New business „Wide format gravure printing“ • Why does a flexo printer invest in gravure? • Motives to invest in a 1.400 mm format • Progress report – 1 x gravure vs. 12 x flexo • Flexo-feeling through sleeve-systems?
15:15	Christophe Pondaven <i>DCM Group</i> Narrow web printing and processing for short and medium sized orders • Highly effective production of narrow web • Laminating with narrow machines • The market for narrow finished films
9:45	Colin Ord <i>Ord Associates Limited</i> Consequences of variety of brands • Reasons for decreasing order sizes • Expectations on printers and pre-press suppliers
16:30	Harry Sieljes <i>adapa the Netherlands Amersfoort BV</i> Narrow web gravure printing at competitive prices • Technical and organizational conditions and restrictions for efficient narrow web production • Commercial comparison of gravure and offset printing
8:45	Breakfast buffet
11:10	Coffee-/Tea break
13:15	Lunch break
16:00	Coffee-/Tea break
17:15	End of first day
19:30	Evening meal
9:30	Karsten Schröder, Innoform GmbH - Welcome and introduction

2nd European Gravure printing conference - Focus: Efficient production of short runs (German-English simultaneous translation)

Agenda day 2 Wednesday, 06.10.2010

13:45	Jürgen Möller <i>4Packaging GmbH</i> Frank Woltering <i>4Packaging GmbH</i> Which engraving method for short-run orders? • Cost structure in prepress • Technology and saving potential • Narrow web vs. wide cylinders
9:00	Dr. Matthias Henker <i>Flint Group Packaging Inks Germany GmbH</i> Errors in gravure printing • Scumming, Stripes, Missing Dots & Co • Colour systems help reduce errors! • What are the effects of colour systems, which lead to errors
9:45	Dr. Werner Prell <i>Constantia Pirk GmbH & Co. KG</i> Short run market pharmacy • Handling short run orders if flexo is no alternative • Cost effective production with the latest technology
11:45	Frank Beuleke <i>X-Rite GmbH</i> Stumbling blocks in colour measurement • Methods of colour measurement • Analysis of colour deviation and possible errors
11:00	Lothar Roth <i>Janoschka Deutschland GmbH</i> Colour Management at any price? • Methods and prices • Payback within short runs? • Alternatives
8:15	Breakfast buffet
10:30	Coffee-/Tea break
12:30	Lunch break
14:30	Stefan Beilenhoff <i>print.con Beilenhoff Consulting</i> Clemens Brinkmann <i>Matthews Engineering</i> Panel discussion • Questions that are collected, during the event from the audience, are going to be discussed with Stefan Beilenhoff and other speakers.
15:15	Summary and end of the event 15:30
