Inno-Meeting Europe - Flexpack & Climate Change

Agenda Tag 1 - Donnerstag, 06.10.2022

0:30h

Anja Holthoff-Schlegel

FPE Flexible Packaging Europe

European Flexible Packaging Consumer Market Trends

- The most important markets for Flexpack
- The most important Retail trends
- Country specific trends for Flexpack

0:30h

Dr. Günter Schubert

Schubertag

Composite beverage carton and its side effects

- Why beverage cartons are so common
- What role aluminium plays in performance
- Which side effects we accept and which are avoidable

0:30h

Ewald Rempel

Sun Chemical Group GmbH

Printing inks support the circular economy

- What influence do printing inks have on recycling?
- How can new printing inks support recycling?
- What will sustainable printing look like in the future?

0:30h

Dr. Daniele Borin

Taghleef Industries S.p.A.

Barrier BOPP films in a reDESIGN concept

- New markets need new concepts
- Mono-Material packaging
- Example protein packaging

0:30h

Sabrina Schmidt

Institut für ökologische Wirtschaftsförderung (IÖW)

Step by step: How to select and introduce sustainable packaging

- Sustainable packaging - what does that even mean? + 2 Case Studies: packaging for almonds and laundry detergent
- From packaging strategy to packaging selection
- Involving the right stakeholders: employees, suppliers, customers

0:30h

Dr. Andrey Charkovskiy

Siegwerk Druckfarben AG & Co. KGaA

Ir. Disha Disha

Siegwerk Druckfarben AG & Co. KGaA

Towards high quality recyclates from printed flexible packaging

- Recycling of flexible packaging – aspiration and reality
- Inks | much more than colour – overview of Siegwerk's CE solutions
- Deepdive: Making recyclable mono-plastic packaging a reality and deinking

0:30h

Ton Knipscheer

TK Packaging Consulting

How Digital Heating can help reach sustainability goals

- Current challenges
- Expectations of Retailer & Consumer
- No Silver Bullet, but let's be brave and start!

0:30h

Alexander Bockisch

Henkel AG & Co. KGaA

From adhesives producer to design partner

- Laminated films of the future - an outlook
- How adhesives & coatings enable circularity
- Value of partnerships for sustainable packaging

0:30h

Thomas Kahl

Mondi Consumer Packaging GmbH

Paper where possible, plastic when useful – Mondi's approach for achieving sustainability targets through packaging

- Brief intro about the sustainability in packaging & how Mondi measures sustainability performance of products
- The challenges & benefits of paper vs plastic: will paper ever replace plastic?
- Case study examples illustrating that there is not one way to sustainability

Inno-Meeting Europe - Flexpack & Climate Change

Agenda Tag 2 - Freitag, 07.10.2022

0:20h

Dagmar Glatz

dm-drogerie markt GmbH + Co. KG

Why sustainability is indispensable for the retail sector

- The DM targets
- The DM strategy
- Project examples

0:15h

Dr. Annett Kaeding-Koppers

AKK INNOVATION

Good results - too weak targets for recycling of printed films

- Results on the recyclability of printed films are available - example PrintCYC
- European legislation still has no specifications for printing inks
- Do brands and retailers have to demand more?

0:30h

Prof. Markus Schmid

Hochschule Albstadt-Sigmaringen

Circular bioeconomy and food packaging concepts

- Introduction to Circular Bioeconomy
- Sustainability aspects of food packaging concepts
- Current projects in application-oriented packaging research

0:30h

Ralf Meyer

Transparent Paper Ltd.

Recyclable and recycled mono-PET solutions

- Mono-PET solutions - an overview
- Why is recycling ready neccesary?
- Examples from the shelf

0:40h

Xavier Bonamour

Bobst Mex SA

New barrier concepts to reduce food waste

- What is One Barrier?
- Why is this usefull?
- Typical values and applications

0:30h

Mike Landwehr

Pöppelmann GmbH & Co. KG Kunststoffwerk-Werkzeugbau

Circular economy with pouches together NOW!

- PÖPPELMANN blue® goes PouchBooster –
- Spout & cap solutions for mono-material pouches
- CO2 reduction by using of PCR-material
- Successful applications in the market

0:30h

Fernando Gordillo

HP Printing and Computing Solutions, S.L.U.

Good for business & Good for the environment. The Flexible Packaging digital (R)evolution

- Advantages of digital printing and the LCA research
- Designed to fit into circular economy: “Pouch to pouch” case studies
- HP Indigo and sustainability: brand adoption journey

0:10h

Karsten Schröder

Innoform Coaching GmbH

Summary

- The highlights in 10 minutes
