

Barrier coatings and adhesives - What is new?

Informationen

Beschreibung: Barrier against gases is one of the main requirements for food packaging. Today, mono materials and fibre-based materials are increasingly required. These should support the circular economy and simplify recycling. But how do you create ideal barriers - we talk about it.

Zielgruppe: Decision-makers along the labels and flexpack supply chain and anyone who wants to find out more about flexpack in terms of technology and strategy.

Niveau: **Stufe 3** - Vorkenntnisse sind sinnvoll
