

Use of film packaging with recycled material - What happens next?

Informationen

Beschreibung: Will the recycling rate for film packaging increase significantly, as expected by PPWR? What are the requirements? What obstacles must be overcome and what do the extruders say?
We will once again be discussing these issues with 2 industry experts and an expert audience in a live chat.

Zielgruppe: Anyone who manufactures, develops or promotes flexible packaging and wants to use recycled material.

Niveau: **Stufe 3** - Vorkenntnisse sind sinnvoll
