PFAS - substances of concern in PPWR - how to stay compliant
Information

Description:	So-called perfluorinated alkyl substances (PFAS), also known as "forever chemicals," are experiencing increasing international concern and are being restricted or banned completely in more and more countries. In addition to their toxicological significance, authorities are particularly concerned that these substances degrade extremely slowly in the environment. EU Commission has restricted PFAS in food packaging as from 12th of August 2026. How can manufacturers and food companies comply with the new restrictions.
Target group:	All those involved in product safety for packaging, e.g. employees from laboratory, production, development
Level:	**Level 2** - Previous knowledge is helpful, but not required
Further information:	duration: 1:30h
Event code:	**LFpE-09-26**
Times:	Tuesday, 22. September 2026, **10:00** - **11:30** o'clock
Event price:	**139,00€ net** (plus 26,41€ VAT)
